1 Reference

1.1 Sample

A reference to this subsection looks like: ''see section 1.1 on page 1.''

Footnotes[1] are often used by people using LATEX.

If you use emphasizing inside a piece of emphasized text, then LATEX uses the normal *font for emphasizing.*

Jiahe Li is learning to use LATEX.

You can also emphasize *text if it is set in italics,* in a sans-serif font, or in `typewriter` style.

---

[1]This is a footnote.
